

How to deal with dropped tokens in EMS

Jane Niven, Head of Support

October 2025

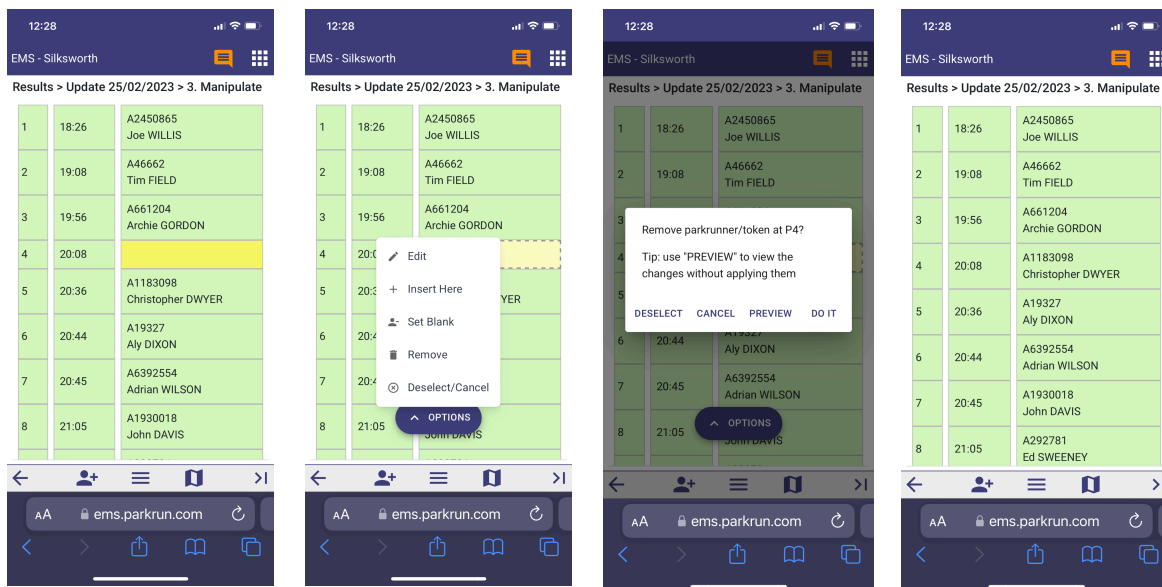

When a token has been 'dropped' and we need to remove that position but keep the time the same we would look to remove the empty parkrunner from that slot moving everyone up to the correct position.

The images below are for 1 dropped token but see page 2 for multiple tokens.

Select the empty parkrunner spot and from the Options select Remove.

You can choose to PREVIEW this change, or select DO IT.

This will move Christopher up one spot to number 4 giving him the time 20:08... and likewise the rest of the field will move up 1 position and the times will change to match.

For multiple tokens select the multiple empty parkrunner spots and click on the REMOVE icon.

This will move everyone up 2 spaces. Jessica will move up 2 positions to time 42:30... Ellie to position 187 43:20, etc.
